

AMENDMENT TO THE TITLE

Please amend the title everywhere, the original executed declaration excepted, as follows:

MIXER; AND MIXING METHOD; ~~AND METHOD OF~~ FOR PRODUCING GYPSUM BOARD SLURRY

AMENDMENTS TO THE SPECIFICATION

Please replace the paragraph at page 26, lines 24-35 with the following amended paragraph:

The attachment 50 as shown in FIG. 23 has an arrangement in that an arcuate body part 57 is formed with the slurry outlet port 45, and that the hollow connector section 47 and the foam feeding conduit 40 are integrally assembled on the body part 57. An arcuate bracket 60 for fixing the body part 57 on the annular wall 23 is secured on an outside surface of the body part 57. The bracket 60 is formed with an opening 61 conforming to the port 45. An upstream end of the section 47 is integrally jointed to the bracket 60, and a downstream end thereof is integrally jointed to an upper end portion of the conduit 46. The annular wall 23 is formed with an opening corresponding to the body part 57. As shown in FIG. 23(D), the bracket 60 is fixed to the wall 23 by fixing elements 62 such as bolts, and the ~~circumferential~~circumferential inside wall surface 57a of the body part 57 constitutes a part of the wall 23.
